

# PREMIER CLEMENCEAU OF FRANCE SLIGHTLY WOUNDED BY ASSASSIN

## MAN BELIEVED TO BE RUSSIAN FIRES FIVE SHOTS, BUT ONE OF WHICH STRIKES STATESMAN

**Aged but Vigorous Official Grapples With Assailant and Then, When Man is Arrested, Walks to His Home; One of the Bullets Strikes Policeman in Eye.**

### CONCERN FOR PREMIER BECAUSE OF HIS YEARS

By Associated Press.  
PARIS, Feb. 19.—Georges Clemenceau, France's aged but vigorous premier, was shot and slightly wounded this morning as he was entering his automobile for a drive.

Five shots were fired by the assassin and it was at first reported that the premier had been wounded in the head. It developed later, however, that he was very slightly wounded in the shoulder.

The premier was able to walk to his home. The shooting took place at 8.55 o'clock this morning as the premier was leaving his house in the Rue Franklin to go to the war office. The assassin was an ordinary-looking man, dressed as a workman. Five shots were fired, of which one took effect in the premier's shoulder.

The assassin was arrested. Policeman Goursat, who was wounded in the right eye, although not seriously, by one of the assassin's shots, told a representative of the Associated Press that Premier Clemenceau rushed up to the assassin and grappled with him.

The premier's wound is not regarded as dangerous in itself, but it is felt that there might be serious consequences from it considering the age and infirmities of the victim. At about 11 o'clock this morning, however, it was officially announced that the premier was not seriously wounded.

It was learned at city hall that the assailant of Premier Clemenceau was a man named Emile Cottin, 25 years old, and born at Creil. The man said his home was in the Montrouse quarter of Paris. The police, however, do not believe the papers he possesses belong to him and are inclined to think him a Russian. He is fair with long light hair and is tall of stature.

One of the witnesses of the shooting, Henry Moulou, a barber's assistant, told the Associated Press representative that when he heard the first shot fired he believed it was the American firing in the air, "as they are in the habit of doing." Moulou rushed out of his shop when he saw what was happening, crying "They have assassinated Clemenceau." He closed with the assassin, Moulou added, and the man threw away his revolver and held up his hands.

Policeman Goursat gave his description of the shooting to the Associated Press representative in the city hall where the arrested man was brought.

An enormous crowd, which observed respectfully, assembled near M. Clemenceau's residence after the occurrence. Within a half hour President Poincaré arrived. He was quickly followed by various members of the cabinet, high officials of the government and representatives of the army and navy as well as of the diplomatic corps, including William Graves, the American ambassador.

Georges Clemenceau has been one of the leading statesmen of France for decades, but it was not until the critical stages of the great war came and he took the reins and guided the country through to the end of the struggle that he became the world-renowned figure that he is today.

With the war, or at least the actual fighting, ended, M. Clemenceau continued at the head of the French government during the trying peace-making period.

Of an extremely vigorous and aggressive personality, Premier Clemenceau, while attracting to himself a large and warmly loyal following, has as well determined and outspoken opponents. At every turn of affairs in parliament, however, he has been able to wear down the opposition to him, and just before the opening of the peace conference he and his administration were given a striking vote of confidence by the chamber of deputies.

Writers from a nearby restaurant joined in holding the assassin whom the police had some difficulty in getting from them and before the police secured the assassin he was beaten by the mob. One of the men in the crowd wanted to help the premier's assailant and the crowd beat him badly.

According to Policeman Goursat the assassin entirely emptied his weapon. All the windows of the premier's automobile were smashed by the bullets.

When the first shot was fired Premier Clemenceau immediately tried to open the door of his car. It was while he was attempting to do this that he was struck. He was able to get on foot into his own house where shortly before noon the Associated Press was informed he was sitting up in an arm chair smoking and laughing with his staff of assistants. The only sign of trouble from the wound, it was stated, was a slightly increased temperature.

LONDON, Feb. 19.—The French embassy here has been advised that the condition of M. Clemenceau, whose life was attempted this morning, does not at present appear to be dangerous. The premier, the advice adds, was taken immediately to his own house after the shooting.

An official dispatch received in London says that the doctors, after an examination of Premier Clemenceau,

### RETURN OF THE 28TH DIVISION IS ASKED BY THE LEGISLATURE

Senate and House Concur in Resolution Urging Issuance of Order Requiring Fighting Unit Home.

HARRISBURG, Feb. 19.—The Senate passed a resolution yesterday, which was later concurred in by the House, requesting Secretary Baker to "order the return of the 28th Division from foreign service, and as soon after such return as may be" to order its discharge from further service.

The resolution sets forth that the division has been in foreign service "for a period of approximately 18 months," and "while in such foreign service has been actively and extensively engaged in numerous battles imposing great hardships and sacrifices upon the men of such division, and resulting in tremendous casualties considering the number of men composing this division."

It is held therein that "it is fitting and proper that the men of this division as reward for their gallant services should be permitted to return to the United States and their homes, and be discharged from further service, and that for the purpose of reorganizing the territory now occupied, troops other than such as have been actively engaged be used."

### PARENTS NEGLIGENT

Court Holds White Couple Partially Responsible for Son's Death.

That equal responsibility for the death of their son through the accidental discharge of a shotgun rested on the parents, was the decision of the court in Uniontown yesterday in the case of Joseph and Louise Shaffer of White, Saltsick township, against Charles M. Mowery, a merchant of that place, to recover damages for the death of their son, Henry, seven years old, who was shot and killed by his brother, Samuel, 14 years old.

The merchant sold to Samuel the shell which caused the boy's death. The gun from which the shot was discharged had been borrowed from a neighbor and was being returned at the time of the mishap. The court held that while the merchant was negligent in selling the shell to the boy the parents also were negligent in permitting the children to have the gun. Therefore the court overruled the plaintiff's petition to have the suit stricken off.

WASHINGTON, Feb. 19.—The American embassy at Paris notified the state department today that an attempt had been made upon the life of Premier Clemenceau but that the bullet wound inflicted by the would-be assassin was not serious.

According to the story as related to members of the embassy the assailant leaped upon the running board of the premier's automobile and fired through the window. One report said two men were involved in the attack.

### JAMISON NOMINEE OF REPUBLICANS IN THE 22ND DISTRICT

As Successor of Late Congressman E. Robbins; Result of All-Day Conference Among Delegates.

John M. Jamison of Greensburg, former member of the State Senate and prominent coal and coke producer, was made the Republican candidate for Congress in the Twenty-second district at an all-day conference yesterday in Pittsburgh. The district is overwhelmingly Republican and his election to a full term, to which the late E. Z. Robbins had been elected, but upon which he had not entered, seems assured. Mr. Jamison, when elected, will enter upon his service upon the day of his election, March 4.

His nomination came rather unexpectedly after a day of discussion in which the conference was plunged by a claim put forth by Butler county, which is part of the district, that it was entitled to the place. The meeting was called under the auspices of the Republican committee, which gives Westmoreland county 15 seats and Butler five.

The gathering was on the point of breaking up with the understanding that the Dauphin county court should decide the matter, when the Butler men held a conference, and at their request the joint conference was assembled and the nomination of Mr. Jamison was made unanimous.

The Butler county delegates supported Levi M. Wise, editor of the Butler Eagle and an attorney of that county. The Democrats have nominated John H. Wilson, an attorney of Butler.

### OPEN BY SATURDAY

That is the hope Republican Structure Over Creek at Iron Bridge.

Repairs are being made to the country bridge over Jacob's creek at Iron Bridge and it is probable the structure will again be open to travel by Saturday, it was announced today in Uniontown. Notice will be given at once through the press when the bridge is ready.

### Russians Decline.

WASHINGTON, Feb. 19.—Formal rejection of the proposal that they meet with the delegates of the Bolshevik and other Russian governments at Princes Island was handed to the peace conference at Paris today by representatives of the governments of Siberia, Archangel and Southern Russia, according to a dispatch to the Russian embassy here.

### JAMISONS BUY WASHINGTON NO. 3 MINE OPENING

Operation of 575-Acre Tract at Perryopolis at Both Ends Contemplated.

### ALL IS BY-PRODUCT COAL

Entire Output Will be Taken by the Bethlehem Steel Company for Cooking; Ultimate Capacity of Two Plants to Be 2,000 Tons Daily.

The Jamison Coal & Coke company, which recently began to develop the Alfred M. Fuller tract of 575 acres of coal in Perry township in the outskirts of Perryopolis, has purchased from the Washington Coal & Coke company the No. 3 plant of that company and is making preparations to operate from this opening, which is at the opposite extreme from the present one, through which the company has been removing coal in a small way for several months. The purchase includes all mine equipment. Just as rapidly as possible the two openings will be developed to capacity which will eventually be, it is estimated, 2,000 tons a day. All of the product is now and will be taken by the Bethlehem Steel company for its by-product coke plants. There will be no coke made at Perryopolis. The Pittsburgh & Lake Erie Railroad company will be a beneficiary, since the product will go over the lines of that company.

Access to the coal at both ends of the tract is by slope. Motor haulage with current from the West Penn Power company, is being installed. At this time, from the first opening, two to three cars of coal a day are being shipped. Next week, it is understood, the company will begin operations through the Washington No. 3 opening.

Forty to 50 men are now given employment. A part of these are engaged in the erection of homes for the workmen. Ten bunkhouses are under construction. More will be erected as the needs arise. Eventually the two Jamison operations will add materially to the population of the Perryopolis community and also increase its importance to a business way.

The immense tract of coal was purchased from the estate of the late Alfred M. Fuller. The Jamisons paid a little over a million dollars for it. R. M. Pollock, formerly with the Washington Coal & Coke company, is superintendent of the company's interests in the Perry field.

### OFFICERS UNDER FIRE

Trials by Court-Martial Coming for Two Naval Men, Daniels Says.

WASHINGTON, Feb. 19.—Trial by court-martial of two naval officers in connection with charges of bribery and graft in the Third Naval district have been ordered by Secretary Daniels.

It was announced today that sufficient evidence had been submitted this morning in a preliminary report by investigators to warrant the trials immediately. Secretary Daniels said at least two other cases were developing.

No names were made public but it was learned that one case involved the acceptance by a naval medical officer of a bribe of \$7,000 for passing an applicant who was not physically qualified for the duties he sought and another case involved a bribe of \$500 to secure a detail which would permit the applicant to remain at home indefinitely.

### DRY MEASURE UP

Passes First Reading to Senate; Final Action Tuesday.

HARRISBURG, Feb. 19.—The Victorian resolution to ratify the prohibition amendment to the Federal Constitution was read a first time in the Senate yesterday, sent back to the Law and Order Committee for a hearing and returned to the Senate before adjournment for the week.

It will pass second reading Monday night and be voted on finally Tuesday morning. The indications are that 31 or 32 votes will be cast for it.

### NEW MINING CLASS

James Wardlaw Organizes Workmen at Phillips for Instruction.

James Wardlaw, the veteran mining instructor of Scotland, was at the Deary mines of the H. C. Frick Coke company on Tuesday night and with the assistance of Mine Foreman G. W. Smith and Superintendent John Shields, organized a good-sized mining class among the workmen.

It is the intention to continue the class two nights a week—Tuesday and Friday—until after the April examinations.

### DATES NAMED FOR BENEFITS FOR SOLDIERS

Minstrel To Be Held in High School Auditorium March 26 and 27.

### MUSICAL COMES IN MAY

Entertainment by Young Women of the City Set for the 16th and 17th; Two Shows Are Only a Part of the Program for Raising \$5,000 Fund.

At a meeting of the Red Cross street fair association held last night the dates for the entertainments to be given to raise funds for the celebration fund to be used when the reception in honor of the fighting men of this city and vicinity is given, were set. Very little other business was done at the meeting, various matters being discussed.

The military minstrel will be held in the high school auditorium on March 26 and 27. The cast for the minstrel will be selected immediately by the show committee and rehearsals will be started at once. Local talent will put on the minstrel.

The musical entertainment in which many girls will participate will be staged at the high school auditorium on May 16 and 17. More definite plans for the musical will be made at a later meeting of the show committee. The two shows are only a part of a money raising program of the street fair committee, it being the object of the organization to secure at least \$5,000 towards the reception fund.

### PRIVATE CARL STEHLE

Writes from Germany.

A card from Private Carl Stehle, of the 17th Infantry Machine Gun Company, in Germany to the Courier, says that Stehle is having a good time. He tells of a visit to an old castle built in 1492. "On every side were port-holes for cannon," he says. "Underground passages led in every direction." The people treat the Americans well, the writer says.

### SCHOOL HOUSE DAMAGED

Settling of Surface Over Mine Causes Cracks to Appear in Walls.

Engineers are today making an inspection of the section of the Phillips mine under the Phillips school building in North Union township to determine if the subsidence of the surface which has caused the walls of the building to crack has ceased. The school has been closed for several weeks. Last night, at a meeting of the school board, at which Inspector James S. Darr of Connellsville was present, it was decided to go into the mine today.

The building consists of the original four rooms built in 1906 and a wing of two rooms erected in 1916. The wing has settled away from the main building so that a considerable crevice has appeared. A frame church nearby is also reported to be damaged. The coal under the buildings was reserved when the sites were sold.

### ROBBERIES CONTINUE; MAN IS HELD UP NEAR B. & O. STATION AND RELIEVED OF HIS ROLL

### FORMER COUNCILMAN SYLVESTER B. DECKER IS CALLED BY DEATH

Had Been Ill for a Year but Was Convinced to His Home in East Park But Two Weeks.

Sylvester Barkley Decker, 61 years, eight months and eight days old, a former deputy sheriff of Fayette county, and one of the best known residents of Connellsville, died yesterday afternoon at 4 o'clock at his home, 801 Franklin avenue. Mr. Decker had been failing in health for about a year, but was able to be about until two weeks ago.

Funeral services will be held Friday afternoon at 2 o'clock at the family residence, with interment in Chestnut Hill cemetery.

The deceased was born at Goshen, Rockbridge county, Va., June 10, 1857, a son of the late Harvey and Fannie Baer Decker. He spent his boyhood days in the county where he was born and since he grew to manhood virtually all of his life was spent in Connellsville. After locating here Mr. Decker entered the service of the Pennsylvania railroad and for some years was a freight conductor. After leaving the service of the railroad company he engaged in painting, following that occupation until his health commenced to fail.

At the time of his late illness Mr. Decker was a watchman for the Pittsburgh & Lake Erie railroad in the West Side.

In politics the deceased was a Republican. In addition to serving as deputy sheriff he was former member of the Connellsville police force, serving in the capacity of chief of police at one time. He also was a member of council.

Mr. Decker was married in Connellsville to Miss Sarah Griffin, who survives, with three children: Miss Alta Decker and Roger Decker, at home, and James Decker, in France. One sister, Mrs. Octavia Goodman, of Goshen, Va., and one brother, Ferdinand Decker, of Lynchburg, Va., also survive.

### CHAPLAIN WRITES OF BURIAL OF PRIV. IGNATIUS L. FRIEL

Grave is in the American Cemetery at Savonay, France; Laid to Rest With All Honors.

Many letters of sympathy have been received by Mr. and Mrs. Frank Friel relative to the death of their son, Ignatius L. Friel, in France on January 20. Among them is the following in part from Chaplain M. J. Lynch of Hospital Center, A. P. O. 731, Savonay, France, dated January 31:

"I presume that you have received by this time from the War Department the official news of the death of your son. I write to offer you my sincere sympathy and to give you some details that may console you. Your son was a patient in Base Hospital No. 8, Hospital Center, Savonay. The diagnosis revealed the fact that he died from the effects of gas."

"As far as his spiritual needs were concerned he could not have been better prepared no matter at what time or place God had called him. Our illustrious Admiral Farragut wrote to his wife before the battle of Mobile Bay: 'He who dies in the service of his country and at peace with God has attained the highest destiny in life.' We feel that both these conditions were fulfilled in the death of your son. The nation owes him a debt of respect and you a debt of gratitude which shall be unfailing in the future years of our national life."

"Your son died on January 20, 1919, and was buried according to the ritual of the Catholic church with appropriate military honors on January 22, 1919, in the American Cemetery No. 22, Grave No. 205-A. This cemetery is located at Savonay, France, a town which is about 10 miles from the port of St. Nazaire."

Recently the War Department asked for a meeting in Pittsburgh to discuss the fight which is being made against the new rates. The protest committee, however, is not willing to enter this conference, as it is felt that no agreement could be reached and it would only entail the trouble of calling a meeting of the representative committees to choose a body to go to Pittsburgh.

### NO CONFERENCE

Protestants Against Fare Increase Want to Proceed With Meeting.

There will be no hearing of the protest committee fighting the increase in rates with officials of the West Penn Railways company in Pittsburgh before the time set for the hearing before the Public Service Commission, which is February 26, according to Attorney E. C. Higbee, who is conducting the legal end of the fight.

Highwayman, a Negro, Makes His Escape By Leaping Aboard Freight Train.

### ANOTHER THUG CONFESSES

James Jackson, Arrested for Implication in Robbery of James Tea, Admits He Went Through Pockets of Foreigner; Hearing is Continued.

Another highway robbery was committed at 4.35 o'clock last evening when A. H. House of Elkins, W. Va., an employe of the Western Maryland railroad, was held up and relieved of \$46 and his watch by a negro just below the Baltimore & Ohio station. The thug jumped on a westbound freight train.

The victim of the robbery had been at the Baltimore & Ohio station waiting for a train to Cumberland. Having become tired of loafing around the station he thought he would stretch himself a little and began a walk down the railroad tracks. As he passed a watch tower a short distance below the station the negro jumped out and struck him four times.

The blow did not render House unconscious but they left him helpless to defend himself. The negro secured the money and watch, making his getaway on the passing freight made up of empty refrigerator cars.

The railroad police were notified and this morning the local officers were informed that the supposed highwayman had been arrested. He could not be identified, however, but was given 15 days to jail for training riding. He was arrested at West Newton and gave his name as Thompson.

The hearing of James Jackson, colored, James McDonald and Harry Coughenour, three youths implicated in the holdup and robbery of James Tea on Monday night, which was opened yesterday afternoon before Alderman Fred Munk, was continued until this afternoon on account of conflicting testimony. The charges preferred against the young men is of highway robbery and assault and battery with intent to kill. James Tea filed the information.

At the hearing Jackson confessed to holding up and robbing Tea of \$4 near the corner of Gibson and McCormick avenues. He said Coughenour and McDonald were not with him but that they were accompanied by two negroes. Later he declared only one of the youths was implicated.

Jackson also confessed to holding up and robbing a foreigner of \$11 on the West Side. The robbery took place in the neighborhood of Eighth street. Jackson, who was released from jail in Uniontown on Monday at 4 o'clock said he came home on the 8.15 o'clock street car, and held the man up about 7 o'clock.

The victim of the holdup was described by the negro as being tall and wearing a light suit. Jackson said the man ran like a streak after he had given up his money.

## Tired, Nervous Women What You Need is Vinol

The reason we recommend Vinol so strongly for such conditions is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates, the very elements needed to build up a run-down system and replace weakness with strength.

### HERE IS PROOF

**Glasgow, Ky.**  
"I was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight."—Mrs. S. M. Gray.  
For all run-down, nervous, anemic conditions, weak women, overworked mothers, feeble old people and delicate children there is no remedy like Vinol.

## TO PAY THOMPSON TAXES

Money Secured for Amounts Owed in State of West Virginia.

Money, and authorization for the payment of West Virginia taxes of J. V. Thompson have been secured by the trustees of the Thompson estate through the Rockwell and Dorsey sales recently approved by the referee. These payments covering taxes for the years 1915, 1916, 1917 and 1918 are to be made at once and the trustees have issued a call for persons associated in Thompson holdings in West Virginia properties to make their payments immediately.

In West Virginia payments must be made on the entire tract at one time and in numerous instances portions of the properties are held by persons other than Mr. Thompson who are recognized as associates.

**Healthy Mothers Healthy Babies**

Every true mother realizes the fact that her baby's health depends upon her own. That the very vitality of her child is influenced by her own physical condition. How important it is therefore to guard against any derangement of the female organs which induce general weakness, nervousness, constant fatigue and inability to properly care for her child. Please remember that Lydia E. Pinkham's Vegetable Compound has brought health and strength to thousands of such mothers.

Mitchell Ind.—Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia. I had gained in strength and was able to go around and do all my housework. My baby when I was old reached 15 pounds and I feel better than I have for a long time. I never had any medicine do me so much good.—Mrs. FRANK MONTMAN, Mitchell, Ind.

Good health during and after maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co. Lynn, Mass. telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.

## HEALTH TEACHER IS PROBABILITY FOR SCOTTDAL

School Board Will Come to  
Decision on Monday  
Night.

### PROPOSAL GENERALLY APPROVED

Education of Children Practically on  
Lines of Health Improvement Con-  
sidered as Essential as Other Spe-  
cialties; Other News of the Day.

Special to The Courier.

SCOTSDALE, Feb. 19.—At the regu-  
lar meeting of the school board Mon-  
day evening, February 24, the board  
will take up the question of employing  
a nurse to be known as the health  
teacher. Dr. O. I. Hess, a member of  
the board, has been the medical ex-  
aminer in the schools for a number of  
years, and while cards are sent out  
indicating the defects in the children  
it is shown that in numerous instances  
children are allowed to go without any  
of the defects being corrected, either  
through carelessness or through in-  
ability of the parents to give the pro-  
per treatment or secure the proper  
treatment.

At the last board meeting the fact  
was brought out that a teacher of  
this kind was as important as the  
writing or music teacher. Following  
the recommendation of the medical in-  
spector and the presentation of the  
matter to the board attention was called  
to the fact that of 2,500,000 men  
between the ages of 21 and 31 who  
were examined for military duty, 38  
per cent were rejected on account of  
diseases that could have been prevent-  
ed by proper hygienic suggestion. As  
to most persons health is considered  
as important, if not more important,  
than education. Persons interested in  
this movement are congratulating the  
members of the school board on their  
considering the matter and it is likely  
that it will be settled at the next board  
meeting and some person will likely  
be elected for the place.

What's the News?

## After the Influenza

It gets you in the head or back—  
suddenly—and oh, how you suffer!  
all on account of that little influen-  
za bacillus. It is a fact that when natu-  
re tries to throw off the poisons from  
the body the result sometimes is in  
inflammation of the kidneys. There-  
fore, the best way is to assist nature  
as much as you can either before or  
after the attack by throwing off the  
poisons (toxins) from the body thru  
the excretory organs, such as the  
bowels, skin and kidneys. Drink  
plenty of hot water, hot or cold  
lemonade, take Dr. Pierce's Anuric  
Tablets for the kidneys and back-  
ache. Then take an occasional pur-

gative made up of May-apple,  
leaves of aloe, jalap and made into  
tiny sugar-coated pills—to be had  
at every drug store as Dr. Pierce's  
Pleasant Pellets. To build up after  
the grip—to make red-blood and  
fill the body with vim, vigor and  
vitality, take an iron tonic, known  
as "Irontic," and sold at most drug  
stores or that well known herbal  
tonic which has been so favorably  
known for the past fifty years,  
Dr. Pierce's Golden Medical Discovery.  
This is made from roots and  
barks of forest trees and brings  
the freshness of the woods right  
to you! In liquid or tablets.

settlement house she pleads for some-  
one to marry her to save her from  
Tony. Jerry Van Tync, a wealthy  
young fellow, intoxicated at the time,  
dresses her and the knot is tied. But  
Jerry prides himself on being a good  
sport, and when he is sober deter-  
mines to be true to Rosa. This he  
manages to do through a series of in-  
teresting events, including a murder.  
A selected comedy is also being  
shown.

THE SOINSON.

"THE GIRL WITH NO REGRETS."  
—Starring Peggy Hyland, will be pre-  
sented tomorrow. As Signa Horrick,  
Miss Hyland has a part which offers  
her enviable opportunities for strong  
dramatic work for reaching the heart-  
strings of the audience for enlisting  
the sympathy which is due an in-  
nocent girl struggling against tempta-  
tions of criminal environment. In one  
role which Miss Hyland has under-  
taken in her remarkable successful  
career as a star has achieved greater  
heights than in "The Girl With No  
Regrets." From the moment the  
climax is reached she runs the gamut  
of varying emotions and in every  
scene her art records a triumph.  
Peggy was surrounded by a million of  
crooks and as many conspirators, no  
one could deem possible that she could  
ever be one of them. The conclusion  
would naturally be that if she were  
with them, the reason must be that  
she was trying to reform them.

THE MILLION DOLLAR DOLL.

The plot of "The Million Dollar  
Doll," which is being presented at the  
Soinson theatre today, matinee and  
night, is a novel one and well suited  
to musical comedy. The guardian of  
a very beautiful young lady has in-  
vested her money in a wonderful  
smoke consumer, which does not prove  
a great success and they are about to  
lose all their money when they hit up-  
on the plan of taking the young lady  
to the Panama exposition and have  
her compete for a \$10,000 prize which  
is to be awarded the most beautiful  
"doll" in the world. They go to Cali-  
fornia by way of the Panama canal  
which gives opportunity for the great  
"boat scene" which has been pro-  
nounced as the most elaborate ship  
scene ever offered the public. The last  
act of the play takes place on the fa-  
mous "Joy Zone" at the exposition  
where Dolly wins the prize and is  
awarded the \$10,000. In these days of  
keen competition among theatrical  
managers and song publishers, a man-  
ager considers himself lucky if he  
strikes one big song "hit" in a musical  
comedy. In this respect "The Million  
Dollar Doll" is far ahead of all other  
attractions of this kind. There are  
no less than four "song hits," any one  
of which will probably make the com-  
poser rich before the end of the se-  
son. "My Little Fox Trot Girl," "A  
Little Luxury Called Love," "Propo-  
sals" and "My Country and the Flag I  
Love" are all songs that stamp this  
production far ahead of all other  
musical comedies.

THE PARAMOUNT.

"WHO WILL MARRY ME?"—A Blue-  
bird feature of strong entertainment  
value, not because of any bigness of  
plot, but because it is splendidly acted  
and has genuine appeal, is being  
shown today. It has some fine dra-  
matic moments and moves with a natu-  
ral swing that holds the interest firmly.  
Carmel Myers plays the heroine, an  
Italian girl named Rosa. Thurston  
Hall is very good as the hero. The  
opening scenes portray an Italian  
wedding in one of the lower parts of  
the metropolis. This is true to life  
and at once promises a production  
that has been carefully made. Rosa  
is depicted in full wedding attire,  
about to enter upon marriage with  
Tony, the barber, who she does not  
in the least admire. At the nearby

## After the Influenza

It gets you in the head or back—  
suddenly—and oh, how you suffer!  
all on account of that little influen-  
za bacillus. It is a fact that when natu-  
re tries to throw off the poisons from  
the body the result sometimes is in  
inflammation of the kidneys. There-  
fore, the best way is to assist nature  
as much as you can either before or  
after the attack by throwing off the  
poisons (toxins) from the body thru  
the excretory organs, such as the  
bowels, skin and kidneys. Drink  
plenty of hot water, hot or cold  
lemonade, take Dr. Pierce's Anuric  
Tablets for the kidneys and back-  
ache. Then take an occasional pur-

### At the Theatres

"THE MILLION DOLLAR DOLL."

The plot of "The Million Dollar  
Doll," which is being presented at the  
Soinson theatre today, matinee and  
night, is a novel one and well suited  
to musical comedy. The guardian of  
a very beautiful young lady has in-  
vested her money in a wonderful  
smoke consumer, which does not prove  
a great success and they are about to  
lose all their money when they hit up-  
on the plan of taking the young lady  
to the Panama exposition and have  
her compete for a \$10,000 prize which  
is to be awarded the most beautiful  
"doll" in the world. They go to Cali-  
fornia by way of the Panama canal  
which gives opportunity for the great  
"boat scene" which has been pro-  
nounced as the most elaborate ship  
scene ever offered the public. The last  
act of the play takes place on the fa-  
mous "Joy Zone" at the exposition  
where Dolly wins the prize and is  
awarded the \$10,000. In these days of  
keen competition among theatrical  
managers and song publishers, a man-  
ager considers himself lucky if he  
strikes one big song "hit" in a musical  
comedy. In this respect "The Million  
Dollar Doll" is far ahead of all other  
attractions of this kind. There are  
no less than four "song hits," any one  
of which will probably make the com-  
poser rich before the end of the se-  
son. "My Little Fox Trot Girl," "A  
Little Luxury Called Love," "Propo-  
sals" and "My Country and the Flag I  
Love" are all songs that stamp this  
production far ahead of all other  
musical comedies.

THE SOINSON.

"THE GIRL WITH NO REGRETS."  
—Starring Peggy Hyland, will be pre-  
sented tomorrow. As Signa Horrick,  
Miss Hyland has a part which offers  
her enviable opportunities for strong  
dramatic work for reaching the heart-  
strings of the audience for enlisting  
the sympathy which is due an in-  
nocent girl struggling against tempta-  
tions of criminal environment. In one  
role which Miss Hyland has under-  
taken in her remarkable successful  
career as a star has achieved greater  
heights than in "The Girl With No  
Regrets." From the moment the  
climax is reached she runs the gamut  
of varying emotions and in every  
scene her art records a triumph.  
Peggy was surrounded by a million of  
crooks and as many conspirators, no  
one could deem possible that she could  
ever be one of them. The conclusion  
would naturally be that if she were  
with them, the reason must be that  
she was trying to reform them.

THE PARAMOUNT.

"WHO WILL MARRY ME?"—A Blue-  
bird feature of strong entertainment  
value, not because of any bigness of  
plot, but because it is splendidly acted  
and has genuine appeal, is being  
shown today. It has some fine dra-  
matic moments and moves with a natu-  
ral swing that holds the interest firmly.  
Carmel Myers plays the heroine, an  
Italian girl named Rosa. Thurston  
Hall is very good as the hero. The  
opening scenes portray an Italian  
wedding in one of the lower parts of  
the metropolis. This is true to life  
and at once promises a production  
that has been carefully made. Rosa  
is depicted in full wedding attire,  
about to enter upon marriage with  
Tony, the barber, who she does not  
in the least admire. At the nearby

# REAL GENUINE REDUCTIONS

Your attention is called again to the reduction in prices at our stores, not only in foodstuffs but in every other department. We challenge any merchant to meet our prices for high class goods—butter, eggs, potatoes, flour, sugar, coffee, canned goods, everything imaginable in staple grocery lines. We are selling lower than any competition and it is our opinion that prices will still go lower. It is so in clothing, it is the same in domestic dry goods of every kind, new price lists going into affect this morning showing declines, showing reductions. If you want to get the most for your money, it is our positive opinion that you should stampede for one of our stores, go to the nearest store in your vicinity—haven't any place of business located directly in the large towns of Fayette and Westmoreland counties but have some conveniently located to Mount Pleasant, Connellsville, Uniontown, Fairchance, New Salem, and other prominent business centers. Most all of our stores have good highways leading to them, easily accessible by automobile, many have good trolley accommodations. It would be to your interest to travel miles to buy from one of our stores. The prices will much more than justify the expense of transportation and the loss of time. Kept posted on the Union Supply Company prices. This is not boasting—it is not our policy to boast—are merely giving you facts that you can establish by visiting any of our stores. We are the leaders, operating sixty-three stores makes us the leaders; have advantages in buying goods, which we are giving direct to our customers.

### W. C. T. U. MEMBERS ENTERTAINED

Mrs. William Shupe is hostess at gathering yesterday; Records of Local Draft Board No. 6 Are Inspected and Found Ready to Ship.

### Special to The Courier

MOUNT PLEASANT, Feb. 19.—Policeman and Mrs. Joseph White are receiving congratulations over the birth of twin boys at their depot street home yesterday. Both babies and the mother are doing nicely. They have another child, a girl.

Mrs. Shupe hostess. Mrs. William Shupe entertained the W. C. T. U. at her home yesterday. Mrs. Burdette of Scottsdale and Mrs. Gibbons were the out-of-town guests. Mrs. Lester Patterson recited a poem composed by a Company E boy in France. Refreshments were served. Draft Inspector Here.

The inspector was here yesterday and inspected the work of Local Board No. 6 and reported to Chief Clerk John Miller that everything was in good shape and ready to crate. No orders have been issued for shipping.

Mary Belle Little. Mary Belle Little, aged 30 years, daughter of Mr. and Mrs. Samuel Little of Hecla, is dead at her home there. Funeral services were held this morning. Interment was made in Mount Pleasant cemetery.

### Miller's Antiseptic Oil, Known as SNAKE OIL

Accomplishing Most Wonderful Results. I want to thank you for your wonderful oil. I state Mr. J. C. Gibson of Jonesboro, Ark. My little girl was very low with diphtheria. I had given her two doses of medicine which cost me \$10 with no result. I bought a 25c bottle of your oil and one application relieved her. Now she is well. It is the greatest remedy I ever saw. Mr. Gibson made this statement before hundreds of people. Mrs. Florence Meador, 234 Whitway street, Hartford, Conn., writes: "I have used your Antiseptic Oil for neuritis with good effects. Only thing I have ever tried that stopped the pain immediately." Mrs. William Gadsden, Ala., writes: "I have used your great pain oil for rheumatism, stiff joints, also for sore throat and I want to say that it is the greatest remedy I ever tried. I recommend it to all sufferers." Many cures reported daily from thousands of grateful users of this wonderful oil. Every bottle guaranteed 25c and \$1.00 a bottle or money refunded at Connelville Drug Co.—Adv.

## NO PAY FOR MORE THAN SIX MONTHS DAWSON BOY'S LOT

In the Intervening Months Money Has Been So Scarce Bill Forger Gets What It Looks Like.

Eight dollars and fifty cents in cash from the government is what Private William R. Forger of Dawson who is in France received between July 15 and January 19 according to a letter to his mother, Mrs. Katherine Forger of Dawson written on the latter date. In part the letter says: "I hope you are all well at home for I have been very anxious about you and the rest back there. I have not received any mail since I left the Orleans hospital, so all I can do is hope I have been getting along fine. I have not had the flu yet. Was up to see Arthur Brown last night and he gave me some Connelville Couriers. The latest one was dated December 18 so you see I got the late news."

Today is Sunday so I spent it around the Red Cross and K of C. On Sunday the Y M C A gives hot chocolate away so I took that in. Week days it costs about 10 cents but I haven't been paid for so long that I forget what money looks like. July 15 I got my last pay from my regiment and I have only had \$5.50 since then.

## Public Is Warned Against Taking Substitutes For Nuxated Iron

Physicians Below Say That Ordinary Metallic Iron Preparations Cannot Possibly Give The Same STRENGTH, POWER AND ENDURANCE

As Organic Iron—Nuxated Iron

United States Judge Atkinson Gives Opinion

Careful investigation by physicians among druggists and patients has proved the fact that there are thousands of people taking iron who do not distinguish between organic iron and metallic iron and that each person often takes, simply because they have taken the wrong form of iron.

Therefore, physicians mentioned below advise those who feel the need of a strength and blood builder to go to their family doctors and obtain a prescription calling for organic iron—Nuxated Iron—and present this to their druggist so that there may be no question about obtaining the proper article. But if they do not wish to go to the trouble of getting a prescription for Nuxated Iron then they are sure to look on the label and see that it says NUXATED IRON.

The remarkable results produced by Nuxated Iron and its widespread sale (it being estimated that over three million people annually are today using it) has led to the offering of numerous substitutes, and these physicians say that health officials and doctors everywhere should caution the public against accepting substitutes in medicines and they especially warn against accepting substitutes for Nuxated Iron, which, instead of being

Judge G. W. Atkinson

United States Judge G. W. Atkinson, of the Court of Claims, Washington, D. C., says: "It is without hesitation that I recommend Nuxated Iron to persons who are in the stress of physical or mental labor have permitted, he system to become debilitated, the body exhausted or the nerves run down. It has restored my appetite and my vitality. I feel that I have dropped off the burden of months of toil in the few weeks that I have been following the very simple directions for the use of 'Nuxated Iron.'"

It is surprising how many people suffer from iron deficiency and do not know it. If you are not strong or well, you owe it to yourself to make the following test. See how long you can walk or how far you can walk without becoming tired. Next take two five-gram tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength and see how much you have gained.

It is dispensed in this city by A. A. Clarke and all local druggists.

## RAISED OWN CORN

### How American Boys in France Got Delicacy.

Farmed From the Trenches to Truck Farming and Were as Successful on the Field as at the Front.

You should have seen the soldiers raising garden truck for Christmas. The climate of France was strange to them, as was the soil, and some of the vegetables that please the French palate, according to Sterling Bell in an exchange.

But the American buddies took up winter trucking with a will.

Nobody ever raised green corn down there in winter. "Nor in summer, very much either," answered the buddies. A few natives used to raise it to sell to Americans of Paris, but they had never tried to. It, though they raised much yellow corn for meal and fodder. Last summer the doughboys in certain hospital truck farm districts resolved to have the real thing. At Bordeaux, where they were particularly successful, raising ears were furnished to the private car of Secretary Baker when he made his trip to France. And it was from the secretary of war's recommendations, they say that the great American truck farm movement in France quit. Red Cross swaddling clothes and became generalized from fighting front to resting rear.

In the south of France winter is a good deal like summer, and they raise almost anything. Heres or St. Michel were betting that they would have green corn for Christmas—and the French natives bet against them.

Most of the gardeners were convalescents, wounded at St. Mihiel, and hungry for the fresh green things they expected to eat presently. Only those who have been deprived of green stuff so long that they shy at the sight of a tin can are able to appreciate the value of these real war gardens. For the fighting over, eating goes on, and when rutabagas that father used to feed to the cows cost 40 cents a pound, the food problem is clearly stated to every man in the army.

The surgeons say the convalescent heroes of Chateau Thierry and St. Mihiel need the garden work as much as they need the garden truck. Get the man out, even for half a day, in the light work of truck farming, and you get him out of himself—and away from sitting around hospitals, listening to wounds being dressed and troubles talked over. High British and Australian neurosis authorities agree, absolutely, that working the soil will work more cures than any other treatment.

In the army farming in France many saw a forerunner of what will happen when Uncle Sam gives little government farms to his veterans on their return.

"We find that the American truck farmer," says a worker, "after he has talked a little with French truckers and has the lay of the land, turns out better than the Frenchman—by up-to-date methods. Side by side, the little American truck farms in France are superior to truck farms under French gardeners in the suburbs of French cities. It is absolutely demonstrated."

## A HOME MADE GRAY HAIR REMEDY

You Can Make at Home a Better Gray Hair Remedy Than You Can Buy.

Gray streaked or faded hair is not only unbecoming, but unnecessary. You can darken it without using a dye.

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half pint of water add 1 ounce of bay rum, a small box of Barbo Compound and 1/2 ounce of glycerine. These ingredients can be bought at any drug store at very little cost, or the druggist will put it up for you. Apply to the hair twice a week until the desired shade is obtained. This will make a gray haired person look twenty years younger. It is not a dye. It does not color the most delicate scalp; is not sticky or greasy; and does not rub off."—Adv.

Envious Discontent. "Yes," said the conversational man in the railway car. "I often wish I were a candidate instead of a commercial traveler."

"Your position is more secure." "Yes. But I'm lucky I got a few people to accept my goods without expecting half the community to break out into three cheers over them."

Beating the Law. "You are charged with going 40 miles an hour," said the rural justice, "and you are fined \$40."

"Judge," said the motorist, "I have only \$2."

"Well, you've got a nerve going 40 miles an hour on a reserve of \$2. Hand me the money."

## PUT CREAM IN NOSE AND STOP CATARRH

### Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no hawking, snuffling, mucous discharges or dizziness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, anise-cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffy and miserable.—Adv.

## HER PERSISTENCY WON THE VICTORY

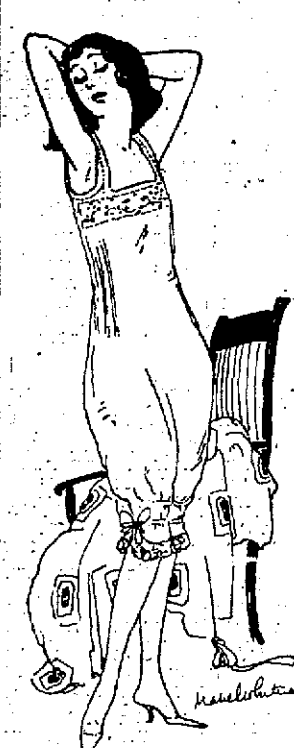

Mrs. Doris Annin, 2948 N. Colorado St., Philadelphia, tells how she won a victory in her persistency in the use of "Tanlac." "I suffered from nervousness, gastritis, indigestion and liver trouble," she says. "A lot of nasty cramps up around my heart and caused me a lot of pain from water brush and heartburn. I heard of Tanlac and now I'm a lot better since persisting with Tanlac. I recommend Tanlac, because it soothes the nerves."

The genuine J. I. Gore Co. Tanlac is now sold here by Heichley's, Harmon's and Connelville Drug stores.—Adv.

Get Over It. The people used to call him "fast." But that was years ago. Now with a cane he hobbles past. The slowest of the slow.

Far Reaching Influence. "What is meant by graft?" asked the inquiring foreigner. "Graft," said the resident of a great city, "is a system which ultimately results in compelling a large portion of the population to apologize constantly for not having money, and the remainder to explain how they got it."

IT'S MADE FOR SLIMNESS. For the woman who feels she cannot stand the fullness of a straight cut "envelope" chemise, this one of semi-fitted lines was designed. Flesh satin with a daintily embroidered insert are the materials used. The little tucks insure a smooth fit over the hips and there are snap fasteners at the back to do up.

## HEALING RELIEF FOR TORTURING ECZEMA

New Remedy That Heals Eczema Quickly.

A. A. Clarke sold hundreds of jars of Hekara, and although he offered to refund the purchase price to any dissatisfied purchaser, not one jar has been returned.

While this is surprising in itself, yet the most marvelous thing is the reports of chronic cases of eczema that have been cured by this simple skin food. People who have suffered with scales, scabs and even bleeding itching have found relief in Hekara. No matter where the eczema, pimples, or other breaking out occurs, whether on the face, hands, legs or body, the application of Hekara should give quick relief, and even the worst or most chronic cases should be cured in a short time.

You can buy a liberal-sized jar today at the very low price of 25c, and with every package goes Mr. Clarke's guarantee to refund the money if it is not satisfactory.—Adv.

## The River

When the Colorado  
Burst Its Banks and  
Flooded the Imperial  
Valley of California

By  
EDNAH AIKEN

(Copyright, Edwin Merrill Company.)

"That's what I want, smart river men, not tea!" laughed Richard. "I want river history."

"There's another man you ought to meet. He was with the second Powell expedition. He's written the best book on the river. He knows it, if any man does. You wanted these maps." Estrada was gathering them together.

"Thank you. And you can just struggle that foreboding of yours, Mr. Estrada. For I tell you, we're going to govern that river!"

Estrada's pensive smile followed the dancing step of the engineer until it carried him out of sight. Perhaps because he was the son of his father, he must work as hard as if conviction went with him, as if success awaited at the other end of the long road. But it was not going to be. He would never see that river shackled.

### CHAPTER VII.

Garden in a Desert.

Hardin leaped into sight as Richard turned the corner of the street. There was but one street running through the twin towns, flanked by the ditches of running water. The rest were ditches, running water edged by footpaths. Soaring, he passed under the overhanging eaves of the desert hotel without a greeting for the loungers, whose chairs were drawn up against the shade of the brick walls. The momentum slackened as Hardin neared the place he called his home. An inner tenderness dulled the sneer that disfigured his face. He could see Innes as she moved around in the little fenced-in strip that surrounded her desert tent. She insisted on calling it a garden, in spite of his railleury.

"Gerty's in bed, I suppose," thought Tom. He had a sudden vivid picture of her accusing martyrdom. His mouth hardened again. Innes, stooping over a rose, passed out of his vision.

It came to Hardin suddenly that a man has made a circle of failure when he dreams going to his office and shrinks from the reproaches at home.

"A 'has-been' at forty!" he mused. Where were all his ships drifting?

Innes, straightening, waved a gay hand.

"She's raising a goodly crop of berries." His thought mocked and caressed her. Her garden devotion was

He loved the Hardin trait in her, a tender joke with him. He loved the Hardin trait in her, the persistence which will not be daunted. An occupation with a Hardin was a distraction. He would not acknowledge the fumes blood in her. Like that fancy mother of hers? Innes was a Hardin through and through!

"It's to the blood," ran his thought. "She can't help it. All the Hardins work that way. The Hardins, always make fools of themselves!"

Innes, lifting her eyes from a crumpled rose, saw that the black devil was consuming him again.

"Will you look at this wreck!" she cried.

The windstorm the previous week had made a sickening devastation of her labors. The morning-glories alone were senseless. A pink oleander drooped many broken branches from which miracles of perfect flowers were unfolding. The prettiest blossom to Hardin was the garden itself. She was vivid from eager toil. Hardin looked at her appreciatively. He liked her kinked suit, simple as a uniform, with its flowing black tie and leather belt. She looked more like herself today. She had bleached out to topos. She had been letting herself get too tanned, running around without hats. Sunburn paled the value of those splendid eyes of hers. He could always tease her by likening them to topos.

His eyes ran over the pink and purple lines of cord-trained vines which made floral screens for her tent. Free of the strings overhead, they rioted over the ramada, the second roof, of living boughs. He acknowledged their beauty. They gave grace to bare necessity; they denied the pasting, thirsty desert, just beyond.

He remembered his own ramada. Gerty had hated it, had complained of it so bitterly when she came home from New York that he had had it pulled down and replaced by a Y roof of pine boards, glowing and ugly. Gerty was satisfied, for it was clean; she

longer felt that she lived in a square house. Let the Indians have ramadas; there was no earthly reason she should. He had urged that the desert dwellers had valuable hints to give them. But what was a ramada to him, or anything else? Hardin turned to leave.

She did not want him to go so soon. She pointed out a new vine to him. She had brought it from Tucson; Kudu. They called it; a Japanese vine. And there was another broken rose, quite beyond the help of stripped handkerchiefs and mesquit spindles.

He followed her around the tent, her prattle falling from his grin mood. He was not thinking of her flowers except as a mocking parallel. The desert storm had made a havoc of his garden—a sorry batch of his life. He and Innes had been trying to make a garden out of a desert; the desert had fought them. It was not his fault. Something had happened; something quite beyond his power. Luck was turning against him.

Innes, why, she was playing as with a toy. It was the natural instinct of a woman to make things pretty around her. But he had sacrificed his youth, his chances. His domestic life, too—he should never have carried a dainty little woman like Gerty into the desert. He had never reproached her for leaving him, even last time when he thought it was for good. The wound burned his wound. Whose good? His or Gerty's? Somehow, though they wrangled, he always knew it would turn out all right; life would run smoothly when they left the desert. But things were getting worse; his mouth puckered over some recollections. Let he loved Gerty; he couldn't picture life without her. He decided that it was because there had never been anyone else. Most fellows had had sweethearts before they married; he had not, nor a mistress when she left him, though God knows, it would have been easy enough. His mouth fell into sardonic lines. Those half-breed women! No one, even when a divorce had hung over him. Oh, he knew what their friends made of each of Gerty's lengthened flights; he knew! But that had been spared him, that vulgar grisly spectacle of modern life when two people who have been lovers drag the carcass of their love over the grimy floor of a curious cuping court. He shuddered. Gerty loved him. Else, why had she come back to him? Why had she not kept her threat when he refused to abandon his desert project and turn his abilities into a more profitable dedication? He could not

think of it. It was for good. The wound burned his wound. Whose good? His or Gerty's? think of it. It was for good. The wound burned his wound. Whose good? His or Gerty's? Somehow, though they wrangled, he always knew it would turn out all right; life would run smoothly when they left the desert. But things were getting worse; his mouth puckered over some recollections. Let he loved Gerty; he couldn't picture life without her. He decided that it was because there had never been anyone else. Most fellows had had sweethearts before they married; he had not, nor a mistress when she left him, though God knows, it would have been easy enough. His mouth fell into sardonic lines. Those half-breed women! No one, even when a divorce had hung over him. Oh, he knew what their friends made of each of Gerty's lengthened flights; he knew! But that had been spared him, that vulgar grisly spectacle of modern life when two people who have been lovers drag the carcass of their love over the grimy floor of a curious cuping court. He shuddered. Gerty loved him. Else, why had she come back to him? Why had she not kept her threat when he refused to abandon his desert project and turn his abilities into a more profitable dedication? He could not

her face as she stared flushing up into his that nipping cold day when he had run into her on Broadway. He remembered her coquetry when she suggested that there was plenty of room in her apartment! His wife! She spoke of seeing his pictures in the papers. "He had grown to be a great man!"

That poignant meeting, the week following had been the brightest of his life. He was sure then that Gerty loved him. The wrangles were only their different ways of looking at things. Of course, they loved each other. But Gerty couldn't stand pioneer life. She had loved him, or she would not so easily have been persuaded to try it over again. She yearned to make him comfortable, she said. So she had gone back, and pulled down his ramada, and put his clothes in the lowest bureau drawer!

"It wasn't either of our faults," he ruminated. "It was the fault of the institution. Marriage itself is a failure. Look at the papers, the divorce courts. A man's interests are no longer his wife's. Curious that it should be so. But it's a fact. It is the modern discontent. Women want different careers from their husbands."

### IMPORTANT TO ALL WOMEN READERS OF THIS PAPER

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition.

Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample also bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Adv.

The 30th anniversary of the organization of the Women's Foreign Missionary Society of the Methodist Episcopal Church at Scitadale is being observed today.

### ONE GLASS TOO MANY MAKES PRIVATE FINNEGAN A TOTAL ABSTAINER FROM GOAT MILK

Writing to his mother, Mrs. Patrick Finnegan, of Trotter, Private T. E. Finnegan of the 23 Company 6th Machine Gun Battalion, United States Marine Corps, stationed in Germany, says he has been suffering from a slight attack of grip but was able to join his company again. The letter is as follows:

"Am feeling a lot better today. Have been in bed four days with a touch of the grip. This is the treatment: I got in the morning I was given a glass of hot goat milk. I went five for the reason that I could not taste it. An hour later I got a soft boiled egg and a cup of acorn coffee. I got along nicely on that, but I was given one glass too much of the goat milk. I never will be able to drink another cup of that milk, so every cup I see I examine before using."

"I expect to be back on duty tomorrow. I wish I was there now, as it seems lonely and the days are long when you sit in a house with a few Germans around you and you cannot understand their lingo. I have learned more of the German language than of the French since I arrived over here. The German language is easy to grasp but the trouble is to hold it."

"The weather is breaking up a bit here. It rained nearly every day last week. I suppose it will rain tonight. Mother, I have not received any mail from you so yet. I cannot begin to think what the trouble is. For the last three months I have been sending some mail across but I do not think it reaches you, as I never get any answer. The old saying over here is 'we will be home soon.' Let's hope so."

## KNOW NOTHING OF WAR UNTIL PEACE

Aged Woman Now Wants to Punish Kaiser.

### SHE WAS BORN IN GERMANY

Because of Her Age, Eighty-Nine Years, Her Son Did Not Tell Her of Great Conflict, but When Peace Celebration Occurred It Was Impossible to Keep Silent—Tells of the Wrongs Perpetrated on the People by Government Officials.

To have lived through the great war and not to know that it was going on is the most unusual record of Mrs. Bertha Spandau, eighty-nine years old, German by birth, now living in New York. Her age kept her son from telling her about the horrors of the invasion of Belgium and of the sinking of the Lusitania. He didn't wish her to worry and fret.

But the day of the peace demonstration made it impossible to keep silent. The old lady heard the whistles blowing and the crowds cheering, and she demanded to know what it was all about. When they told her she raised her hands in a gesture of impatience and said:

"Oh, if only I could get these two hands on that Kaiser!"

Oppressive Taxes. Mrs. Spandau lived in a Rickenwald, which is a little town of about 2,000 people. According to her description and that of her son it is much like the German towns that you used to see on the stage in the days before they were banished from it. There were carved wooden houses and steep and narrow streets and a town hall and a belfry with a sweet-toned bell.

But this was not all. There were taxes to be paid, and when you have six children German taxes are nothing to be laughed at. "If you cannot pay them an officer or an under officer comes into the house and looks over all your things. If you have two clocks, says Mrs. Spandau, or two tables or even two chairs, the tax officers take one of them. They hold them for a few days and then if you still do not pay, the things are sold at auction and you may be sent to prison."

If your children are not sent to school, and it is not always easy to do this when there is nothing for them to eat, you or your husband may be set to work for the government breaking stones or chopping wood, and again you may be sent to prison.

### Not a Happy Life.

Besides this, Mrs. Spandau said, her husband was a German soldier. Evidently, even in those days, a German soldier did not have a happy life. Mrs. Spandau said he was in such fear of the government that he made her promise, before he died, that none of his five sons would ever wear the Gray uniform. They never did. Sol Spandau explained, though there is a nephew wearing the United States uniform, over in France.

Mrs. Spandau was disgusted by the Kaiser's flight to Holland. She asks what have the Kaiser and his six sons done that they draw a salary of 6,000,000 marks from the day they are born, while other babies have to work for their living. And who pays for all the richness but the German people?

"No one," said Mr. Spandau, the son, "has been more patriotic than die mother. She says that she is sorry that her sons are all too old to go and that her grandchildren are all daughters."

### CHINESE MADE EASY

New Phonetic Writing Enables Literates to Learn in Months. China has adopted a system of phonetic writing which is expected to revolutionize elementary education of that nation and reduce existing illiteracy. It was announced at New Haven, Conn., by Edwin C. Lobenstein, who has been in conference with the Yale-in-China house office.

The system invented by the Chinese themselves, and approved by the governing board of education in Peking, consists of only thirty-nine symbols. Any sound in the language can be represented by combining two or at the most three of these symbols, and experiments made with hundreds of individuals have conclusively shown that an adult illiterate man or woman can learn to read by the use of a system of this kind in three or four weeks. It is now being taught in all the government higher normal schools in the country.

### His Object.

"I've read your play through twice," said the producing manager, "and I can't find a suggestive line in it."

"Of course you can't," replied the aspiring dramatist. "I have taken care to keep it perfectly clean."

"What did you write it for—exactly?"

## GIVEN RAW DEAL, IS THE BELIEF OF ROCKWOOD MECHANIC

Command Overseas Nine Months Is Ordered Home, Then Younger Unit Is Substituted.

Writing to his mother, Mrs. F. Moon of Rockwood, Sergeant Charles F. Moon, attached to a mechanic's regiment in the air service, tells of the disappointment caused when his unit was transferred to the transportation corps instead of being sent home after all preparations had been made. The letter follows:

"Am writing this letter not because I feel like it but because it is necessary. I wrote you a few days ago that we were on our way home as we thought. However, I found out yesterday that we have been transferred into the Motor Transportation Corps, after having our final inspection and being relieved from the air service, and even had our transportation, which means that we are here for at least six months and possibly more."

"Had they told us when we were sent here I would have been all right but after getting us all ready to go home and then let someone pull such a stunt is pretty hard to take. We have reasons to believe it is a crooked deal as the Third Regiment which has been over here only six months is going home in our place—something wrong some place."

"Our company spent nine months on the front, and we were bombed day and night. We worked and never refused. I have been on duty as much as 72 hours at a time and was only too glad to do it because we were getting the stuff up there for the infantry."

### Heptat.

"Gadsden looks more cheerful these days than I have seen him in a long time."

"Yes, poor fellow. I hate to disturb him, so I avoid him as much as possible."

"What do you mean?"

"He thinks because the war is over the cost of living will soon come down and he will be able to live on his salary again."

## WEAKNESS REMAINS LONG AFTER INFLUENZA

Reports Show That Strength, Energy and Ambition Return Very Slowly to Grippe Patients.

After an attack of influenza, doctors advise that nature be assisted in its building-up process by the use of a good tonic—one that will not only put strength and endurance into the body, but will also help to build up and strengthen the run-down cells of the brain.

One of the most highly recommended remedies to put energy into both body and brain is Bio-feren—your physician knows the formula—it is printed below.

There's iron in Bio-feren—the kind of iron that makes red blood corpuscles and creates vigor. There is lecithin also; probably the best brain invigorator known to science. Then there is good old reliable gelatin, that brings back your lagging appetite.

There are other ingredients that help to promote good health, as you can see by reading this formula, not forgetting Kolo, that great agent that puts the power of endurance into weak people.

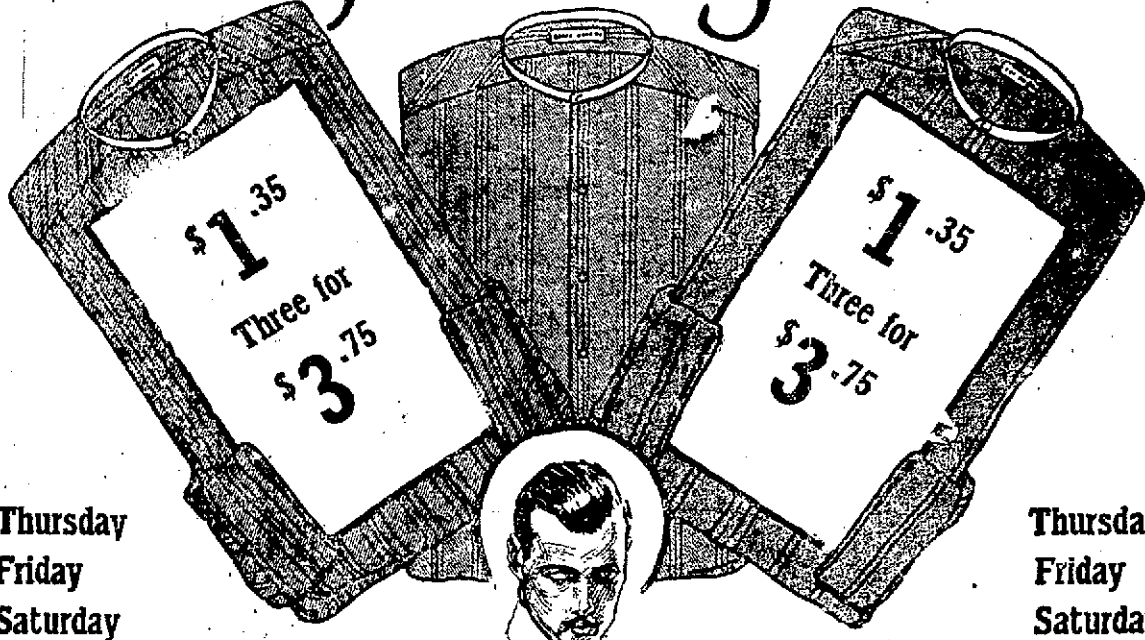

Taken altogether Bio-feren is a splendid active tonic that will greatly help any weak, run-down person to regain normal strength, energy, ambition and endurance.

Bio-feren is sold by all reliable druggists and is inexpensive. For weakness after influenza patients are advised to take two tablets after each meal and one at bed time—seven a day, until health, strength and vigor are fully restored.

It will not fail to help you and if for any reason you are dissatisfied, with results your druggist is authorized to return your money upon request—without any red tape of any kind.

Note to physicians: There is no secret about the formula of Bio-feren. It is printed on every package. Here it is: Lecithin; Calcium Glycero-phosphate; Iron Peptonate; Manganese Peptonate; Ext. Nut. Yonibait; Glacerein; Capsicum; Kolo.
